

Land Scape Bait Station

Rapido- LBS

The Landscape is a secure, rat-size bait station designed to blend in with the outdoor environment. Its realistic color, stone, and naturally textured surface gives this bait station the authentic look of a rock.

Servicing the station is simple with the new, removable tray and side-opening design.

Four vertical bait securing rods hold eight 15g, 20g or 28g/1 oz. BLOX securely in the station. It also holds a T-Rex Rat Snap Trap. This station is made of heavy-duty, injection-molded plastic with a durable hinge built to withstand frequent servicing.

Landscape Rodent Bait Station delivers superior durability that PMPs have come to expect in tamper-resistant bait stations.
